

Lecture 17 Understanding Harmony in the Society

Basic Human Aspiration

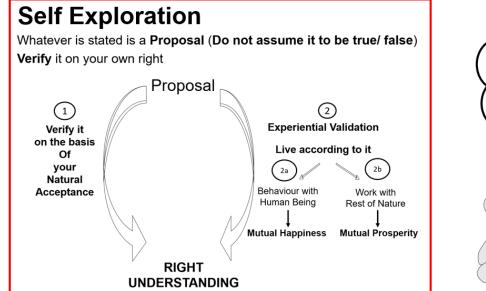

Continuous Happiness and Prosperity

Happiness is to be in Harmony

Program for Fulfilment of Human Aspiration

Process of Understanding

Society

- We saw that the family is the basic unit or building block of human organisation
- The society is the next larger order
- Society is composed of many families living together making collective effort for a common goal

What is Desirable and Where are we today?

Families living together, in a relationship of mutual fulfillment (common goal)

Society

People living together, but not in relationship of mutual fulfillment (differing goals)

Crowd

People living separately, in opposition / struggle (conflicting goals)

Battlefield

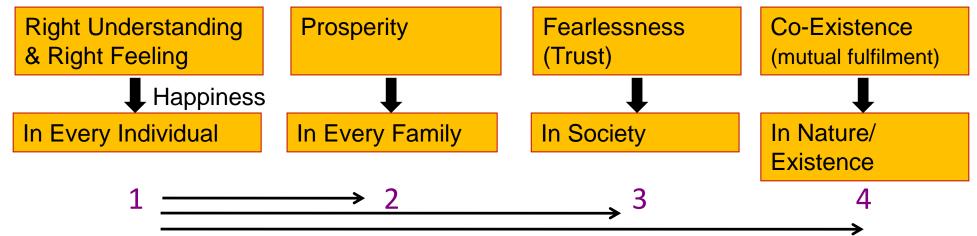

Society

We will explore:

- 1. Goal of human being living in society (human goal)
- 2. The dimensions or systems required to achieve the human goal
- 3. Scope of the systems (in lecture 18)

Human Goal (ekuo y{;)

Are all 4 required, desirable or we can leave something out?

If all 4 are achieved, would anything else be required?

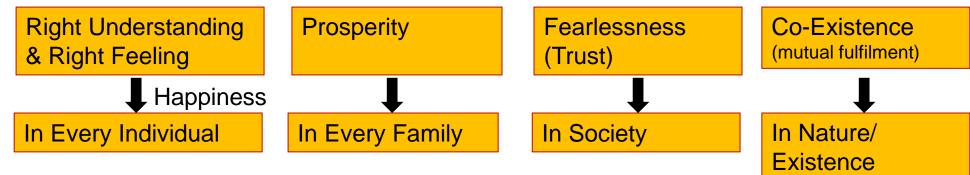

Are we working for all 4? In the family? In the society?

What would be the sequence and priority of effort on these goals?

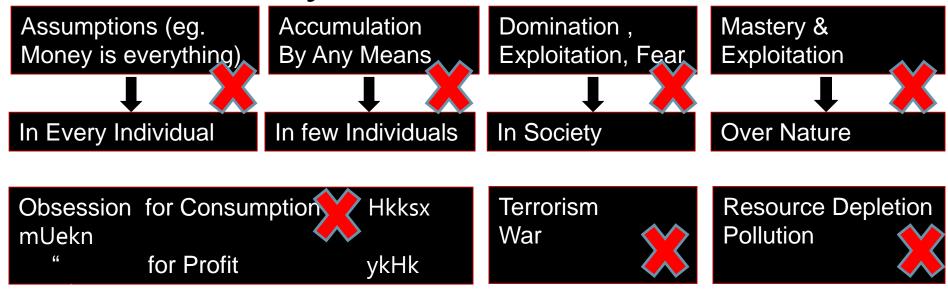

Human Goal (ekuo y{;)

Gross Misunderstanding (vk/kkjHkwr Hkze)

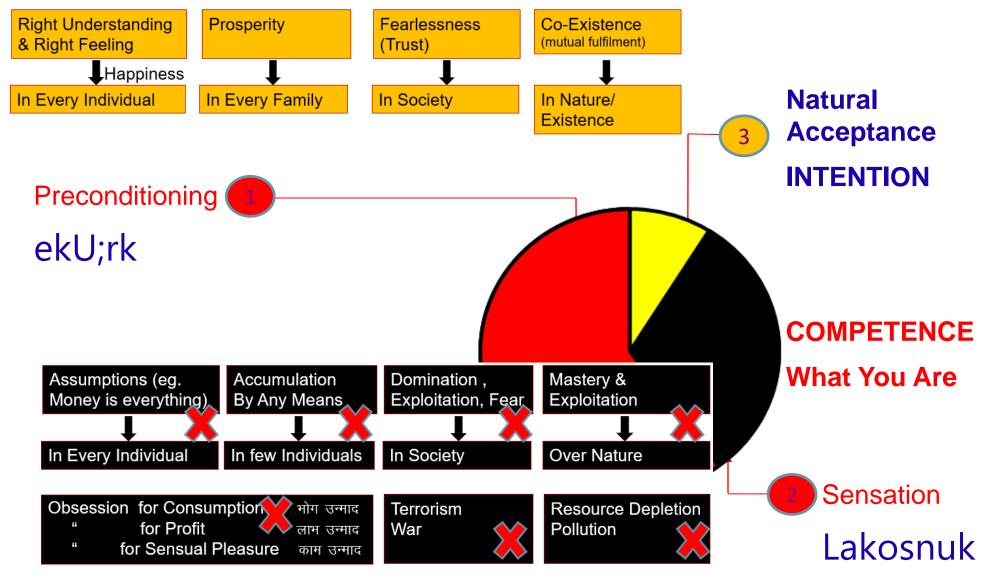

Self Reflection

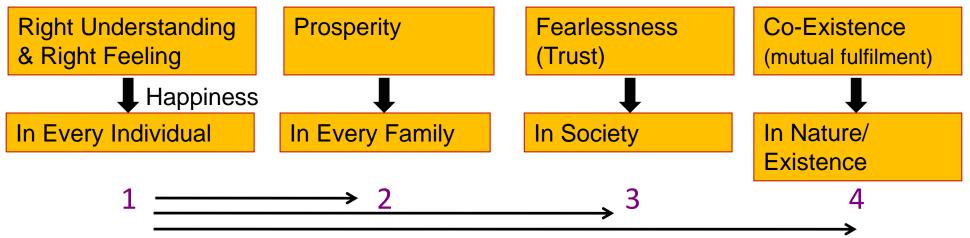

How much of your imagination is about these naturally acceptable human goals, how to achieve them; and slowly transition from present society to a human society?

And how much of your imagination is about the problems in the present society and how to manage in it?

1a. Education – To develop the right understanding of the harmony at all levels of our being – from self to the entire existence (individual, family, society, nature/existence)

1b. Sanskar – The commitment, preparation and practice of living in harmony.
Preparation includes learning the skills and technology for living in harmony at all levels
– from self to the entire existence (individual, family, society, nature/existence)

2b. Self-regulation – Feeling of responsibility for Nurturing, Protection and Right Utilization of the Body

- 2a. Health (Swasthya)
 - Body acts according to Self (I)
 - Parts of the body are in harmony (in order)

→ Recognising What is Needed as Physical Facility

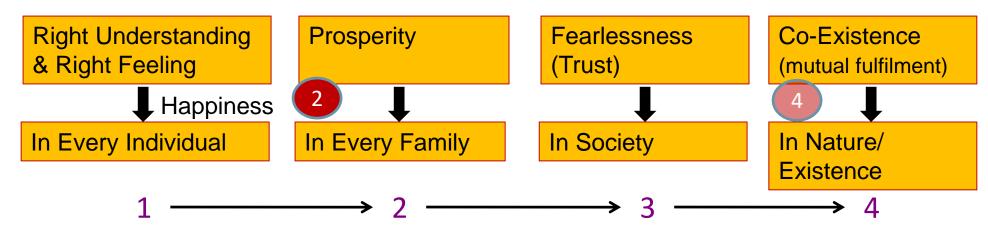

Program for Health-Self Regulation

- 1a. Intake includes air, water, sunlight, food (food is nutritious, digestible & tasty and waste is excretable), all intake through our senses (sound, sight, smell etc)
- 1b. Rising time, sleeping time, eating time...
- 2a. Outcome of labour is production of physical facility
- 2b. No physical facility is produced by exercise

1. What to Produce?

Required Physical Facility (necessary for nurturing, Protection & right utilisation of body)

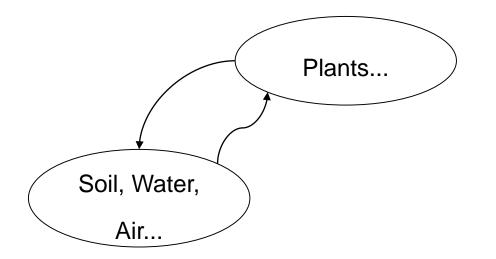

2. How to Produce?

- a) Mutually Enriching, Cyclic Process (Eco-Friendly)
- b) Ensuring Justice (People-Friendly)

Mutually Enriching, Cyclic Process (Avartansheel Process)

- 1. Cyclic
- 2. Every Unit in the Process is Enriched

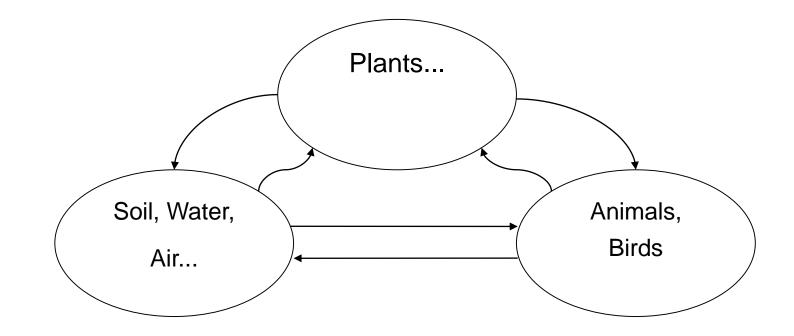

This mutually enriching, cyclic process is already going on in Nature. We do not have to create it

This mutually enriching, cyclic process is already going on in Nature. We do not have to create it

Mutually Enriching, Cyclic Process (Avartansheel Process)

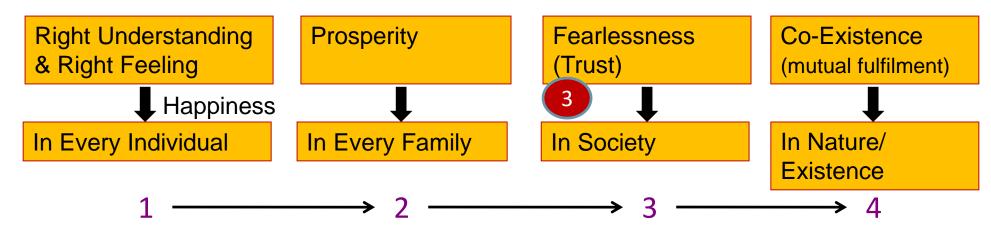

- 1. Cyclic
- 2. Every Unit in the Process is Enriched

We, human beings, have to understand the mutual fulfilment in nature & to live accordingly i.e. To update the man-made processes to be cyclic and mutually enriching

4a. Justice – Recognition of Human-Human Relationship, its Fulfillment & Evaluation leading to Mutual Happiness

Harmony in Family – Justice, From Family to World Family (Undivided Society)

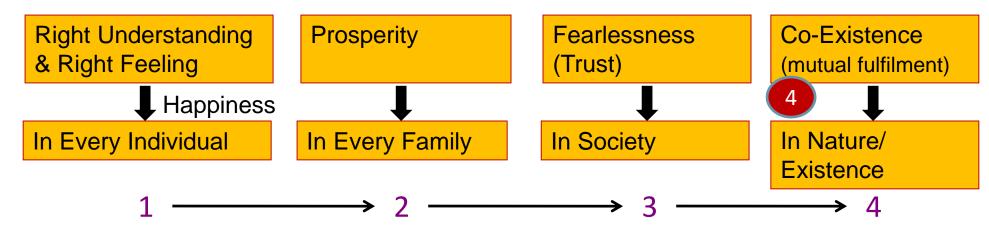

- 1. Relationship is between one self (I_1) and other self (I_2)
- 2. There are feelings in relationship in one self (I_1) for other self (I_2)
- 3. These feelings can be recognized they are definite (9 Feelings)
- 4. Their fulfilment, evaluation leads to mutual happiness
- Feelings in relationship:
 - 1- Trust fo"okl FOUNDATION VALUE6- Reverence J)k

4b. Preservation – Recognition of Human-Rest of Nature Relationship, its Fulfillment & Evaluation leading to Mutual Prosperity or Mutual Enrichment

- 1. Prosperity of Human Being
- 2. Enrichment, Protection & Right Utilisation of rest of Nature

Preservation of rest of Nature

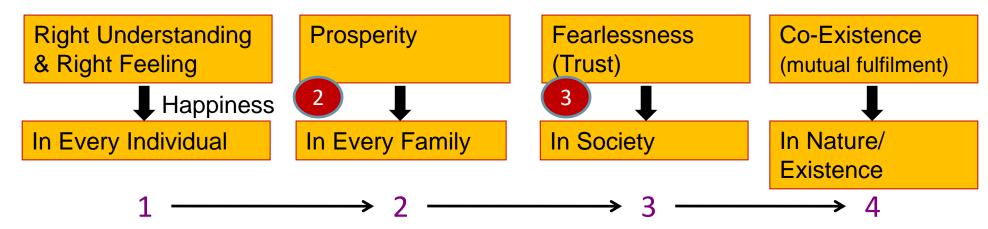

- What is fundamental?
- Enrichment, Protection or Right Utilisation of Nature
 - Right Utilisation of Nature
- Wood of 4 full grown trees is enough for one person's needs from birth to death, including the pyre wood
- How many trees can you plant in your lifetime?
 - At least 10 trees?
 - Or even one tree on every birthday, so 60-70 trees?

Eg. Prof. Parmeshwara Rao of Emanchally village has planted 5000 trees in each of the 100 villages near Emanchally

Sum Up

- A society is composed of families living together, in a relationship of mutual fulfillment. They have a common goal, which is:
 - Right understanding & right feeling (happiness) in every individual 1.
 - Prosperity in every family 2.
 - Fearlessness (trust) in society 3.
 - Co-existence (mutual fulfilment) in nature/existence 4.
- The family is the basic unit in society, i.e. society is composed of family, group of families, village family, group of village families, town family... and so on, where every individual is responsible or selfdisciplined and self motivated by common values, participating in the larger order toward a common human goal
- Through the participation of every family in the society, in the 5 dimensions or social systems, the common human goal is fulfilled for all 1. Education – Sanskar
 - from family order to world family order
 - generation after generation

- 2. Health Self-regulation
- 3. Production Work
- 4. Justice Preservation
- 5. Exchange Storage

[the current civilization is largely based on the assumption that human being = body, happiness is derived primarily from sensual pleasure & feeling from other; and hence accumulation of physical facility, domination and exploitation is at the core of the socio-economic systems]

FAQs for Lecture 17

Understanding Harmony in the Society

Questions

- Are we talking about an ideal state of society here? Can we ever achieve such a society?
- Why have we not included Health as one of the human goals?
- If everybody has the feeling of self-regulation, people will be healthy, but there will be more unemployment of the healthcare professionals. How do we deal with that?
 Similar question for lawyers, policemen, security guards, army,...
- While going through courses of marketing, many a times it appears that we need to do injustice with the other to earn money. As a teacher or student, what can be our role?
